PART IV: COMMERCIAL SUMMARY (One-Page Pitch)

Transformational Epicenter: Senior Secured Bridge Loan

$10M at 9% for 36 months. Interest-only, quarterly. Bullet at maturity. No commitment fee. Prepayable at any time with a 6-month makewhole (minimum interest of $450,000), then open at par. Borrower is the existing Mexican real estate trust (Fideicomiso) already holding title to the Property, via assignment of the fideicomisario beneficial interest at closing.

A senior secured bridge loan to fund the acquisition and buildout of a transformational wellness and hospitality property in Akumal, Quintana Roo, Mexico. The Property sits on 45,000 square meters across nine lots and is currently listed on Christie's International Real Estate as "Rancho Paraiso Oasis" at USD $11,900,000. Over $25 million of prior construction capital has been deployed into land, improvements, and infrastructure, embedded in the asset as a replacement-cost backstop beneath the market value.

The Structure

- **Borrower:** Existing Mexican real estate trust (Fideicomiso) already holding title to the Property. Sponsor acquires the fideicomisario beneficial interest at closing via assignment at the existing trustee bank. No new Fideicomiso formation required, no SRE permitting delay, no US or Delaware entity in the structure.

- **Collateral:** First-priority lien on the Fideicomiso's direct title to the Property, plus pledge of the fideicomisario beneficial interest, insurance assignment, and account control agreement.
- **Governing law:** Mexican law for the Fideicomiso, lien, and enforcement. Loan Agreement and Note governed by New York law for international lender comfort.

For the Lender

- $225,000 quarterly interest payments
- Full $10 million principal returned at month 36
- $12.7 million total cash out (27% gross return)
- First-priority lien on the Fideicomiso's direct title to the Property
- 84% loan-to-value against the $11.9M Christie's listing, with $25M+ of prior construction capital underneath as a replacement-cost backstop
- Senior position, step-in rights, clean Mexican enforcement pathway
- No commitment fee. Prepayable at any time with a 6-month makewhole (guaranteed minimum interest of $450,000), open at par thereafter.

For the Sponsor

- Non-dilutive capital to complete buildout
- Simple single-jurisdiction structure with no US entity coordination
- Short duration (36 months) matched to the buildout to stabilization timeline
- Clean debt structure that does not complicate future equity capital
- Takeout at maturity through refinancing or sale

Timeline: Targeting closing within **14 days** of signed LOI. The deal structure uses assignment of the existing fideicomisario beneficial interest rather than new Fideicomiso formation, which removes the multi-week trust formation and SRE permitting steps and makes a 14-day close executable. Path-to-close detail available in the lender outreach package.
